4-H PROGRAM

RULES & REGULATIONS Adoption of Rules

The Evergreen State Fairgrounds, hereinafter referred to as Fair, is a division of Snohomish County government. The fairground facility operates year-round with a full-time staff of Twenty-Two. Each year special emphasis is given to the agricultural exhibits, as agriculture is one of Washington State's largest industries. Exhibitors are encouraged to showcase all aspects of the agriculture industry of yesterday, today and tomorrow. Information and programs are available to all citizens without discrimination regarding "race; sex; gender; sexual orientation; gender identity; gender expression; religion; age; color; creed; national or ethnic origin; citizenship; physical, mental, or sensory ability; genetic information; and/or status as an honorably discharged veteran or member of the military.". Fair management is authorized to adopt and interpret such rules and regulations as it deems necessary for the safe and orderly operation of the annual fair. This year's theme is **The Evergreen State Fair... Where the Magic Comes Alive in 2025!** Good luck on your Fair adventure!

The strength of the 4-H Program lies in its volunteer adult and teen leaders, who are energetic, enthusiastic, and dedicated to helping young people. Over 300 volunteers and 800 youth in Snohomish County experienced the 4-H program annually. The 4-H Volunteers and members are supported in their efforts by the faculty and staff of the Washington State University Extension office in Willis Tucker Park, in Snohomish.

Objectives for 4-H participation at the Evergreen State Fair are to provide, in a friendly but competitive setting, ...

- an opportunity for 4-H members to apply their acquired knowledge and skill
- recognition of youth for their comprehension of the many facets of their project(s)

IN STATE POULTRY USDA - NPIP VS Form 9-3 or a certificate of veterinary inspection within 30 days prior to entry and must not be coming from an area that is under State or Federal restrictions. All other birds, including exotic fowl, pigeons, and doves, require a Certificate of Veterinary Inspection that contains the following statement.

"To the best of my knowledge, the birds listed on this certificate are not infected with exotic Newcastle disease, psittacosis, or avian influenza and have been free from clinical signs of or known exposure to infectious or communicable disease during the past thirty days."

NPIP requirements: All chickens, exotic fowl, and game birds must test negative for Pullorum-Typhoid within 90 days prior to exhibition.

Waterfowl, doves, and pigeons are exempt from this rule. Exhibitors are exempt from this rule if they are members of the National Poultry Improvement Program. • If you have any poultry-related exhibition questions, please contact the Washington State Avian Health program at 509-607-4974 or avhealth@agr.wa.gov. All turkey must originate from an NPIP participant flock that has met Pullorum-Typhoid, Avian Influenza, Mycoplasma Gallisepticum and Mycoplasma Synoviae classification requirements or has tested negative for Pullorum-Typhoid, Avian Influenza, Mycoplasma Gallisepticum and Mycoplasma Synoviae within 30 days prior to entry.

Veterinarian, vet tech or trained personnel can draw ½ cc of blood from each bird and send the samples to WSU Avian Health and Food Safety Laboratory in Puyallup. A WDSA field Veterinarian can perform PT testing at the Fair.

SHEEP – All sheep must have: • Official individual identification for all breeding animals and wethers 18 mo. old or older. • An entry permit for breeding rams over 6 mo. old • A CVI stating: o The animals are free from clinical signs or known exposure to any infectious or communicable disease including, but not limited to, foot rot, sore mouth, and caseous lymphadenitis o The animals originate from a flock in which scrapie has not been diagnosed in the past five years or are from a flock enrolled in the USDA Voluntary Scrapie Flock Certification Program • Animal health test results. Sheep entering Washington for show or exhibition purposes and returning to their home state are exempt from testing requirements. o Breeding rams 6 mo. or older require a negative ELISA test for Brucella ovis within 60 days before entering Washington State; and must be palpated and certified free of any evidence of epididymitis if being sold in Washington.

Goats traveling, sold, or shown without registration papers require an official scrapie tag, or a tattoo which lists the entire scrapie flock ID and individual animal ID; for example, WAABC 001 or WA1234001. WA livestock markets request that all goats be tagged. Castrated sheep and castrated goats under 18 months of age do not require a scrapie id, however most WA markets, fairs, and other areas of commerce require identification

SWINE – Official individual identification on all pigs of any age • A CVI issued within 30 days before arrival in Washington stating, "To the best of my knowledge, swine represented on this certificate have not originated from a premise known to be affected by Porcine Epidemic Diarrhea virus (PEDv) and have not been exposed to PEDv within the last 30 days." • An entry permit number. All swine leaving the farm of origin, passing through livestock markets or collection facilities, or participating in exhibitions must have USDA-approved identification.

FREE USDA-approved electronic ID tags and applicators for Washington fairs and youth exhibitors.

ALPACAS & LLAMAS – All alpacas and llamas are required to have a Certificate of Veterinary Inspection stating the animals are free from clinical signs or known exposure to any infectious or communicable disease.

RABBITS - There are many strains of the RHD virus, but three are of most concern. RHD Type 1 has two forms, RHDV and RHDVa. RHD Type 2 has just one form, RHDV2. The two forms of Type 1 are quite similar, and their vaccines are cross-protective. They tend to not affect young bunnies but have a very high mortality rate for adult rabbits. RHDV2, on the other hand, seems less deadly than the Type 1 strains, but affects all ages of rabbits. The RHDV2 vaccine only protects against that type. RHD is not a zoonotic disease and there is no public health significance. RHD is specific to rabbits. May act as carriers like vehicles, shoes and equipment can.

Show/fair management will need to establish policies for exhibitors who wish to attend their show. It is up to each rabbit show's management to evaluate their risks and decide what parameters they would like to establish and enforce

REJECTION OF ANIMAL/LIVESTOCK

- Any exhibit with indications of infectious or contagious diseases, ectoparasites or conditions will be rejected. Exhibitors are aware that ringworm, warts, pinkeye, strangles, contagious ecthyma, hoof rot, scabies, lice, mites, ticks, and fleas fall into these categories.
- The Fair Veterinarian will reject animals showing indications of disease symptoms during the Fair, and when necessary, exhibitor may be instructed to remove animal from exhibit area.

ADJUDICATION OF CLASSES

- No person will be permitted in the ring while stock is being judged except the judge and necessary attendants. Any person interfering with the judges during their adjudication will forfeit the right to premiums. All officers are required, and exhibitors requested to report any violation of this rule to Fair management.

STALL/PEN/CAGE OCCUPANCY

- The department superintendent is solely responsible for assignment of exhibit space within barns, except where otherwise noted. Completed entry form(s) and fee must be submitted to Superintendent prior to assignment of space.
- Under no circumstances will an animal, unless it is entered in a livestock department, or authorized for exhibition, be allowed to occupy a stall or pen until all exhibition animals are accommodated. After said animals have been provided for, should there be any available stalls or pens; exhibitor may make application to superintendent to occupy space.
- Bedding resources are getting difficult to obtain; the Fair will be notifying you of new Policy & Procedures for bedding.

DISPLAY OF LIVESTOCK

- All animals must remain un-blanketed from 10:00am until 9:00pm on each day of the fair. The only exception is the day the animals are groomed for judging, and judging day when they may be blanketed prior to the show. Contact department superintendent for further clarification.

LIVESTOCK EXHIBITOR - CODE OF ETHICS

Believing it is in the best interest of all breeders of all livestock to maintain a reputation of integrity and to continue to present a wholesome and progressive image in the show ring, management lists herewith those practices which are considered unacceptable in presenting livestock at Fair. The use of such practices or procedures is, therefore, considered unethical in the showing of livestock at the Evergreen State Fair.

The following practices are not allowed:

1. Misrepresenting the age of the animal for the class in which it is shown.
2. Treating or massaging any part of the body internally or externally with an irritant, counter-irritant, or other substance to temporarily straighten a weak back or loin, or to produce unnatural animation.

3. Minimizing the effects of cramping by feeding or injecting drugs, depressants or applying packs or using artificial contrivance or therapeutic treatment exempting normal exercise.
4. Striking the animal to cause swelling in a depressed area.
5. Surgery of any kind performed to change the natural process or growth, maturation, contour or appearance of any animal, including teeth. The removal of teats or horns, clipping and dressing hair and trimming of hooves is allowed.
6. Insertion of foreign material under the skin.
7. Any attempt to change natural color of an animal, either purebred or crossbred, by changing the color or adding false hair, fleece or skin at any point, spot or area of the animal's body.
8. The use of alcoholic beverages in the feed or administered as a drench.
9. Administration of drugs of any kind or description, internally or externally prior to entering the show ring, except for treating a recognized disease or injury and for the tranquilization of bulls that may otherwise be dangerous to females in heat.
10. Balancing the udder by any abnormal means including the use of a mechanical contrivance or the injection of fluid or drugs.
11. Treating or massaging the udder or its attachments with an irritant or counterirritant. The use of common products such as fly spray, ointment or liniment in excess to the extent that irritation occurs unless required to reduce edema at the time of calving.

The term "drug" shall mean any substance, the sole possession or use of which is controlled by license under Federal, State or local laws or regulations and by any substance commonly used by the medical or veterinary professions. The use of any chemical and/or compound that is not approved by the Food and Drug Administration (FDA) for use in meat producing animals, and the illegal use of approved chemicals and/or compounds are prohibited. All animals shall be subject to tests (blood, urine and/or tissue) for foreign substances that exceed the acceptable levels established by the United States Department of Agriculture, or the FDA. A positive test may result in disqualification, forfeiture of premiums and/or awards.

BARN OCCUPANCY

- All decorative materials must be fire retardant. Official E.S.F. Open Class stall card must be displayed in decorating theme.
- Electrical equipment and appliances used by exhibitors shall be properly shielded, grounded, if necessary, for safe operation; and all electrical cords shall be in good condition, without breaks in insulation. All electrical plugs shall have covers to insulate wire or connections from receptacle faces.
- Such precautions shall be the responsibility of the user, but Fair may inspect at any time all electrical equipment and may impound, for the duration of the Fair, any equipment considered unsafe.
- Smoking is prohibited throughout the fairground.

- Livestock trailers used to haul animals during the current fair season are not allowed to park in RV parking areas.

HERDSMANSHIP

- Exhibitor is responsible for supplying all tools associated with Herdsmanship including but not limited to wheelbarrow, shovel and pitchfork.
- All animals and stalls must be presentable to the public during public hours (10:00am to 10:00pm daily).

- In most cases feeders and mangers are provided by Fair. Verify availability with department superintendent.
- Bedding resources are getting difficult to obtain; the Fair Management will notify you of new Policy & Procedures for bedding.

VETERINARIAN-CLIENT RELATIONSHIP

- Twice daily, Fair Veterinarian will make onsite service calls to respond to animals listed on the "Vet Check List".
- Any expenses incurred regarding the examination and/or treatment of any animal exhibited at the Evergreen State Fair will be the sole responsibility of the owner of said animal.

TIME OF CLASSES/SHOWS In as much as possible, the schedule set forth in the individual departments will be followed. Fair management reserves the right to alter or cancel schedules as required by circumstances.

RELEASE OF LIVESTOCK

- Exhibitor may remove livestock on exhibit only at the times set forth in the individual department schedule. Removal or withdrawal of animal/livestock prior to release time will cause forfeiture of premiums and awards won in any department of the Fair unless approved by Department Superintendent & Superintendent Coordinator.

ANIMAL ACTIVIST ALERT

- At all times exhibitors shall be aware of suspicious activity such as, out of the ordinary photographing of animal or exhibitors, and questioning of a suspicious nature.
- In the event of potential animal activist activities, the following actions should be taken:

1. Exhibitors should contact department superintendent or another dept. official.
2. Exhibitor and attendants should remain calm and conduct business as usual.

Remember that the activist's goal is to draw attention and cause a disruption.

- The Fair and its participants are protected under Public Law 102-346 passed August 26, 1992, by U.S. 102nd Congress. Refer to Animal Enterprises Protection Act of 1992 - Section 43.

UNDER NO CIRCUMSTANCES SHOULD EXHIBITOR SUBMIT TO INTERACTION WITH THE ACTIVIST

Your cooperation is appreciated!

MEMORANDUM OF UNDERSTANDING

A shared understanding between WSU Extension (4-H) and Agricultural Education, Washington FFA Association, exists to foster expanded participation and opportunities. The Evergreen State Fairgrounds supports and encourages both programs by adhering to the principles established as a code of ethics for participation. For your information, the following are Fair related components taken from the Memorandum of Understanding.

MEMORANDUM OF UNDERSTANDING

Between

AGRICULTURE EDUCATION

WASHINGTON FFA ASSOCIATION

And

WSU EXTENSION

4-H YOUTH DEVELOPMENT PROGRAM

Concerning

4-H & FFA PROGRAM OPERATION IN WASHINGTON STATE

Agriculture Education/FFA and the 4-H youth development programs in the state of Washington are carried on for the purpose of promoting the maximum development of the members participating in these activities. We recommend that the following principles be considered a "code of ethics" for carrying on the two programs:

1. Agriculture Education teachers should encourage students to enroll and continue in the 4-H program.
2. County extension agents and adult volunteer leaders should encourage members to enroll in agriculture education classes available to them in their local secondary schools and to become members of the Washington FFA Association.
3. A member may participate in all judging or bowl division activities in FFA and 4-H, unless contests are held simultaneous, then the member must choose.
4. Members simultaneously enrolled in 4-H and FFA must carry separate and distinct projects or animals *during the same calendar year*. The program year is defined as October 1 to September 30. Both organizations desire to help in the education of youth. Involvement in both programs should result in doubling of the educational impact on the individual.
5. No member will be permitted to exhibit the same product or individual animal in both FFA and 4-H divisions. Inventory record proof of projects must accompany article/animal at time of entry at exhibit/fair event.
6. Publicity should reflect the contributions of each organization, giving the full story with respect to the contribution of both organizations when a joint contribution has been made in the development of the individual and their projects.
7. For the benefit of both organizations (4-H and FFA) separate division should be provided in all fairs in the state to eliminate competition between the members of the two organizations. Champions representing the two organizations will not be brought together in competition. However, when the situation in the community or a particular fair or youth show indicates that creations of a youth division (without 4-H and FFA identification) would be desirable, a single division may be organized with the agreement of the local agriculture teacher and FFA advisor, the county extension agents and show management, and with the concurrence of the state leaders in 4-H and FFA. Local fairs/shows may set up special rules and regulations for the management of that event; however, they must be in accordance with Memorandum of Understanding.

It is recommended that district or county meetings be held with agents and vocational agriculture and natural resources teachers periodically to discuss their roles and to determine local application. Frequent contact between the agents and teachers for mutual support and planning of leadership development programs are encouraged.
