The Evergreen State Fairgrounds, hereinafter referred to as Fair, is a division of Snohomish County government. The fairground facility operates year-round with a full-time staff of Twenty-Two. MEMORANDUM OF UNDERSTANDING

A shared understanding between WSU Extension (4-H) and Agricultural Education, Washington FFA Association, exists to foster expanded participation and opportunities. The Evergreen State Fairgrounds supports and encourages both programs by adhering to the principles established as a code of ethics for participation. For your information, the following are Fair related components taken from the Memorandum of Understanding.

MEMORANDUM OF UNDERSTANDING
Between
AGRICULTURE EDUCATION
WASHINGTON FFA ASSOCIATION
And
WSU EXTENSION
4-H YOUTH DEVELOPMENT PROGRAM

Concerning
4-H & FFA PROGRAM OPERATION IN WASHINGTON STATE

Agriculture Education/FFA and the 4-H youth development programs in the state of Washington are carried on for the purpose of promoting the maximum development of the members participating in these activities. We recommend that the following principles be considered a "code of ethics" for carrying on the two programs:

1. Agriculture Education teachers should encourage students to enroll and continue in the 4-H program.
2. County extension agents and adult volunteer leaders should encourage members to enroll in agriculture education classes available to them in their local secondary schools and to become members of the Washington FFA Association.
3. A member may participate in all judging or bowl division activities in FFA and 4-H, unless contests are held simultaneous, then the member must choose.
4. Members simultaneously enrolled in 4-H and FFA must carry separate and distinct projects or animals *during the same calendar year*. The program year is defined as October 1 to September 30. Both organizations desire to help in the education of youth. Involvement in both programs should result in doubling of the educational impact on the individual.
5. No member will be permitted to exhibit the same product or individual animal in both FFA and 4-H divisions. Inventory record proof of projects must accompany article/animal at time of entry at exhibit/fair event.
6. Publicity should reflect the contributions of each organization, giving the full story with respect to the contribution of both organizations when a joint contribution has been made in the development of the individual and their projects.
7. For the benefit of both organizations (4-H and FFA) separate division should be provided in all fairs in the state to eliminate competition between the members of the two organizations. Champions representing the two organizations will not be brought together in competition. However, when the situation in the community or a particular fair or youth show indicates that creations of a youth division (without 4-H and FFA identification) would be desirable, a single division may be organized with the agreement of the local agriculture teacher and FFA advisor, the county extension agents and show management, and with the concurrence of the state leaders in 4-H and FFA. Local fairs/shows may set up special rules and regulations for the management of that event; however, they must be in accordance with Memorandum of Understanding.

It is recommended that district or county meetings be held with agents and vocational agriculture and natural resources teachers periodically to discuss their roles and to determine local application. Frequent contact between the agents and teachers for mutual support and planning of leadership development programs are encouraged.
